A KyMaPRO Solution →

Turnover Packages Made Simple

KyMaTOP™ CREATES

KyMaTOP™ is a web-based application that makes creating a comprehensive turnover package a **simple and intuitive** paperless process, and results in a **clean, easily navigable electronic package**. KyMaTOP™ is easily **customizable** to your products, your processes, and your customers.

- Turn over your entire package on a **single DVD** or any portable media of your choice
- **KyMaTOP™ organizes** the components of your TOP in the manner that best fits you
- There are **no limitations** on what can be turned over: interactive training tools, databases, backups of software, CAD files, cycle development tools – whatever your equipment and your clients will need
- **KyMaTOP™** is on a secure platform that **utilizes encryption and audit trail**

KyMaTOP™ IMPROVES

KyMaTOP™ improves communications with your customer:

- **Simple web-based interface** lets the customer look through your TOP without being on-site and tying down your people
- All your **documents are always available** to everyone who needs them
- **No more “borrowed” papers** that are never found again
- **Easily archive** your communications
- A calendar function is available to **track milestones, meetings, site visits, and more**

KyMaTOP™ SAVES

Not only will **your turnover packages be impressive**, you will **save significantly** on time and labor assembling it.

- Organization and arrangement of the documents are **automatic**
- **No more searching** through multiple binders for a piece of paper
- **Each person maintains** their own portion of the package; you won't need to assign someone to work full-time on managing the paperwork
- Your turnover package serves as a business tool that **standardizes your documentation practices**
- **Affordable, cost effective, and environmentally friendly**
